

Carbon Cycle

```
graph LR; A[Carbon Cycle] --> B[Atmospheric concentration of carbon dioxide]; B --> C[Climate Dynamics]
```

The diagram illustrates a causal relationship between the Carbon Cycle and Climate Dynamics. It features a dark blue background. On the left, a dark blue square with a light blue border contains the text 'Carbon Cycle'. A thick orange horizontal bar connects this square to the text 'Atmospheric concentration of carbon dioxide' in the center. Another thick orange horizontal bar, which ends in a large orange arrowhead, connects the central text to a solid light blue square on the right containing the text 'Climate Dynamics'.

Atmospheric
concentration
of carbon dioxide

**Climate
Dynamics**
